

THE WORLD'S DATABASE OF TRAM, TROLLEYBUS & METRO

This MS Access database is a unique encyclopaedia and covers all known tramways, trolley-buses, metros, funiculars, rack-railways, mono-rails, people movers and operating museums past and present around the world. It will show you the important data like inauguration- and closure date and the gauge of each system at a glance. In addition, it contains information about the System's layout, Current collection, Rack-System, Interurban routes, all including details like

NEW
Version 6.0

extension (km), number of routes, gradient etc.

Any list of such a kind is worthless without a map. Would you really like to search for a small town somewhere around the world in an atlas? Besides, many atlases do not contain any village which used to have a tram. Therefore, maps showing the location and Interurban-Routes are provided for each country. These PDF-maps are searchable, too.

You will be able to set filters and print out different kinds of reports about each country, mode or city. Statistics are in-

TRAM - TROLLEYBUS - METRO

Country *(Israel)*

Model *(Hatchback Israel)*

cluded as well to give you an overview of systems past and present.

Discover the world of tram, trolleybus & metro! Enjoy the experience of locating the place you are looking for on a map especially created for this purpose.

New features in Version 6.0:

- Data and maps are all up-to-date, revised entries
- New recherche of all USA-Systems and updates
- USA-state maps are in better quality now.

It is possible to run the database with Access Runtime¹. This database will be updated continuously! The latest version is guaranteed!

THE WORLD'S DATABASE is available on CD and as a PDF-file

CD	Version Access 2007/ 2010, 2013, 2018 – Full ACCDE Database and Access runtime version	29,90 €
CD	Update – Full MDE or ACCDE database (<i>free by E-Mail via wetransfer</i>)	9,90 €
PDF	Database – Report Version, all information except “Source”, “Mail”, ca. 1300 pages	29,90 €
PDF	Database – Complete Report Version, 1 File/page, ca. 9500 pages	29,90 €
	- additional 130 Country files (as PDF maps); not available separately	5,90 €
<i>CD</i>	<i>Old Version for Access 2000, 2002 and 2003 – Full MDE database. Important: This database is from August 2018- it will receive no further update!</i>	10,00 €

Please order by letter, postcard or E-Mail and specify the version required. Prepayment is necessary (plus postage 3,60 €/Europe, 10,00 €/Overseas; Pay Pal plus 1,00 €); no postage if send by E-Mail!

Peter Sohns, Leistikowweg 14, D-30655 Hannover, Germany, E-Mail: tram.trackmap@t-online.de.

Bank account: Sparkasse Hannover, International Bank-account No. DE17250501 800037884212; PAY
PAL and registered letter with cash accepted!

System requirements: This is an Access database; therefore, you need MS Access 2007/ 2010 or higher on your PC. You also need Acrobat Reader (version 5.0 or higher) on your PC to open and view the maps and other documents. For the PDF-Database only Acrobat Reader is necessary.

¹ **Access Runtime:** This database will operate with the Runtime, which is available from Microsoft (free); however, the functionality is limited - you can't set filters and reports from the main form; just few reports are available.

² **Update:** If you already ordered a copy of the Database, you are entitled to ask for an update for a reduced price. The Update price includes Postage for Europe (plus 5,00 € Overseas); Free by E-Mail via filetransfer
